- Receive both secure and clear fax messages automatically.
- Compact, portable and very easy to operate.
- Exportable, high-grade encryption algorithm.

CopyTele USS-900AF SECURE FAX SYSTEM

Confidentiality. It's not a Luxury. It's a Necessity!

When connected to regular fax machines or MFPs the **Patented** (U.S. Patent S6,430,691) **CopyTele USS-900** provides high-grade real-time fax encryption. The **USS-900AF** is so flexible, diverse, portable and easy to use why would anyone allow their personal and private communications to be faxed over telephone lines unprotected. In this day and age, government, business and personal communications need to be kept confidential, encrypted information can not be decrypted and read by an unauthorized person.

The **USS-900** contains the communication technology of **CopyTele, Inc.** and utilizes the ultimate digital encryption algorithm of the day the **Citadel™ CCX** developed by the **Harris Corporation**. Utilize your standard Group III fax equipment, no need to purchase costly digital fax products; memory and dialing features are supported by this compact and portable security system that is very easy to operate.

The **USS-900** received the Product Achievement Award for Business Services in 2000 as recognized by the Security Industry Association.
